

兔抗 FLAG Tag 多克隆抗体

中文名称:	兔抗 FLAG Tag 多克隆抗体
英文名称:	Anti-FLAG tag rabbit polyclonal antibody
别名:	DDDDK epitope tag; DYKDDDDK epitope tag
相关类别:	标签抗体
储存:	冷冻 (-20℃)
宿主:	Rabbit
抗原:	FLAG Tag
反应种属:	Fusion proteins containing the Flag Tag
标记物:	Unconjugate
克隆类型:	rabbit polyclonal

技术规格

Background:	The DYKDDDDK peptide has been used extensively as a general epitope tag in expression vectors. Due to its small size, it is unlikely to affect the tagged protein's biochemical properties. This antibody recognizes the DYKDDDDK peptide fused to either the amino- or carboxy-terminus of targeted proteins.
Applications:	ELISA, WB
Name of antibody:	FLAG Tag
Immunogen:	Synthetic peptide: DYKDDDDK conjugated to KLH
Full name:	FLAG Tag
Synonyms:	DDDDK epitope tag; DYKDDDDK epitope tag
ELISA Recommended dilution:	500-1000
WB Predicted band size:	50 kDa

WB Positive control:	Fusion proteins containing the Flag Tag
WB Recommended dilution:	10000-50000
